

Knowledge Organisers

What is a Knowledge Organiser?

A knowledge organiser is a set of key facts or information that you need to know and be able to recall in order to ‘master’ a unit or topic.

An organiser normally fits onto 1 or 2 pages of A4 – this helps you to visualise the layout of the page which in turn helps you to memorise the information better.

Research has shown that knowledge organisers will help prepare you for your GCSEs, practice revision skills and help “train your brain” to move facts from your short term memory to your long term memory
